Portage la Prairie, MB R1N 3J9

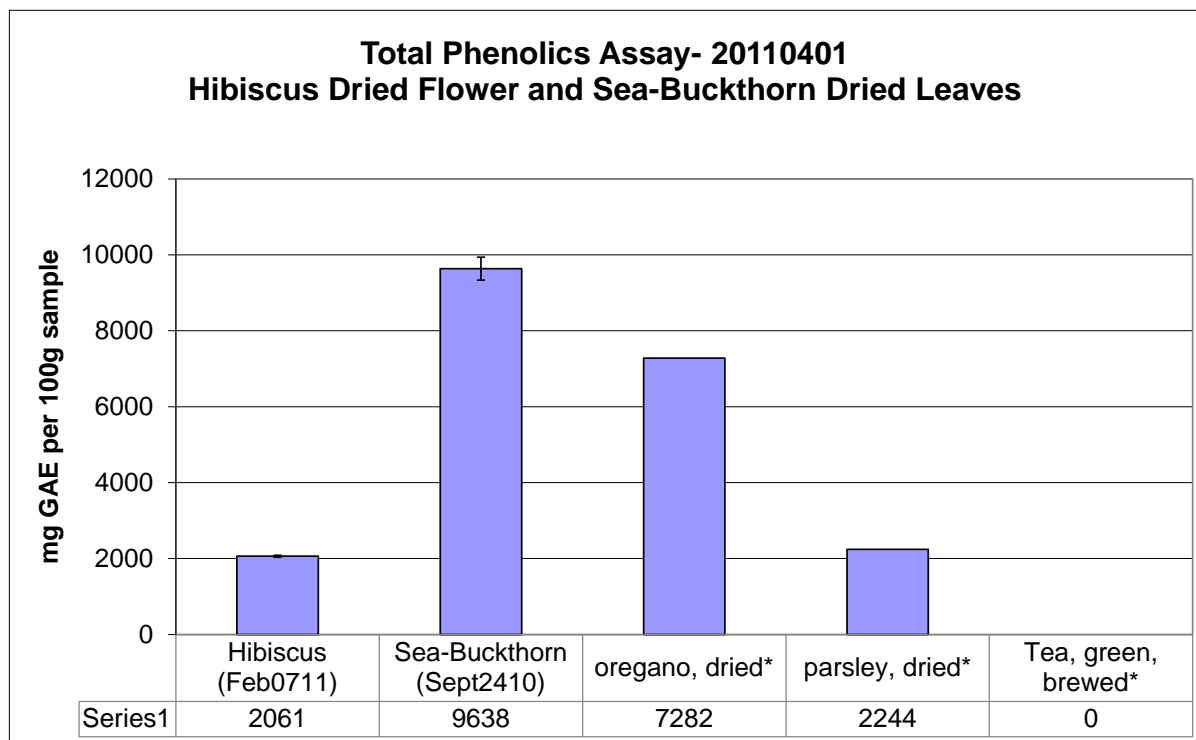

# ANALYSIS REPORT

## OBJECTIVE OF EXPERIMENT

To analyse the ORAC and total phenolics of dried hibiscus flower and sea buckthorn leaves.

## RESULTS

\* Oxygen Radical Absorbance Capacity (ORAC) of Selected Foods, U.S. Department of Agriculture, Nov 2007

## CONCLUSION

The samples provided to us from the Food Development Centre have relatively high ORAC values and total phenolic content. We have included values for dried oregano and parsley leaves and also brewed green tea for comparison purposes.
